"Recently Dianne spoke to the entire Friesens staff of over 500 people. She spoke of her own life and of some of those featured in the book. All of us who heard her came away with the resolve to look at our own lives, understanding that we too have it in us to become extraordinary. We will look at each new day through her eyes and see the opportunities we didn't see in the past. Thank you Dianne."

—David G. Friesen, Chairman, Friesens Corporation

"I have had the opportunity to engage Dianne twice for the Colorado Society for Clinical Specialists in Psychiatric Nursing's annual fall conference. It was a pleasure to work with her in preparation for the conferences—she was timely and responsive to our requests for information needed for her presentations. As a speaker, she uses both personal and professional examples to illustrate her speaking points. She engages well with the audience and left us with practical healing skills to use with our clients and ourselves. I recommend her highly as a speaker who touches your heart with your stories."
